

MULTIPLE SCLEROSIS COMPREHENSIVE CARE CENTER FACT SHEET

Overview

- Established in 1990 to provide state-of-the-art cutting edge treatment and management of MS. Internationally recognized experts provide the best evaluation, neurologic care and recommendations. The Center fosters a rigorous research program that could lead to finding the answers to this puzzling disease.
- The Center is conveniently (with ease of parking) located at our Belle Meade Clinic. It is part of Stony Brook University Medical Center, one of the world's leading research institutions and the only academic medical center on Long Island.

Clinical & Support Services

Our dedicated physicians, nurse practitioners and nurses at the MS Comprehensive Care Center offer expert resources in:

- Neurology •Physical and Occupational Therapy •Neuroimaging •Neuro-Ophthalmology
- Urologic Evaluations •Neuropsychologists and Cognitive Assessments •Dermatology
- Social Work Services •Speech and Swallowing Studies •Pain Management •Infusion Center
- Patient Education •Community Outreach

National Pediatric MS Center

Directed by Dr. Lauren Krupp, the Center focuses on children with MS.

Research

These are exciting times in MS. There are many current treatments available and tremendous new advances to come. We are happy to provide the opportunity to participate in cutting edge research for those individuals who wish to join a clinical trial. Our research involves:

- new therapies for MS •disease biomarkers •central nervous system (CNS) repair strategies
- cerebrospinal fluid studies •experimental neuroimaging techniques •cognitive & fatigue impairment

Faculty— MS Care Center Team
